TREASURER'S REPORT, 1909.

TREASURER'S OFFICE,

City Hall, Toronto, March 31st, 1910.

To His Worship the Mayor:

SIR,—I have the honor to hand in herewith the Annual Report of the Civic Receipts and Disbursements for the year 1909, with the usual supplementary statements relative to the City Debt, the Sinking Funds, and other special accounts as under, all of which have been duly examined, and are accompanied by the Report of the City Auditor.

1. An abstract of the Receipts and Disbursements for the financial year ending 31st December, 1909.
2. A detailed statement of such Receipts and Disbursements.
3. A statement of Expenditure for 1909 on account of Local Improvement Works and Services, showing separately each class of improvement.
4. A statement of the Current Assets and Liabilities of the City, and condensed Balance Sheet, as on 31st December, 1909.
5. A statement showing the amount of insurance effected on the Corporation property, and the names of the several companies participating therein.
6. A statement relating to the City Debenture Debt in its several branches.
7. A statement of City assessment and other statistics.

The above statements necessarily contain an immense mass of detailed matter, but the Treasurer, after conference with the Board of Control, was instructed to continue these detailed statements as heretofore. At the same time it was suggested that a condensed statement of revenues and expenditures might be compiled and framed somewhat on the lines of the annual Estimates, with distinctive headings, and showing separately (1) controllable and uncontrollable expenditures from current revenue and taxation; (2) capital expenditures; and (3) all mere financial transactions; and in like manner a condensed statement of revenues, showing (1) amount derived from ordinary taxation; (2) amount received from revenues other than taxation; and (3) financial transactions, including proceeds of debentures and receipts from special deposits and investments, bank advances, etc. These condensed statements of revenues and expenditures have been prepared and are herewith subjoined. The detail of each item of income and expenditure can be readily traced and found in the detailed statement of receipts and expenditures. I have also prepared and submit herewith a summarized statement of the Water Works receipts and maintenance and

capital expenditures for the year 1909, together with a statement of the Water Works debenture debt as on 31st December, 1909.

I also forward statements of the current accounts for 1909 of the Board of Education, the Separate School Board and the Public Library Board.

The financial year commenced with a balance in hand and in banks amounting to \$2,304,471.79, and the receipts from the ordinary revenues, taxation, sale of debentures, etc., amounted to \$12,969,482.27. The disbursements, including redemption of debentures and sinking fund investments, amounted to \$12,779,378.87, leaving at the close of the year a balance of cash in hand and in bank (including sinking fund deposits) amounting to \$2,494,575.19.

REVENUE AND EXPENDITURES AND UNPROVIDED APPROPRIATIONS, 1909.

After the passage of the Estimates for 1909, the Council found it necessary to make supplementary appropriations to the amount of \$91,276. This amount was decreased by a surplus over the estimated Revenue of \$60,236, making a net deficit of \$31,040.

The following statement shows the amount of unprovided expenditures and liabilities incurred subsequent to the passage of the Estimates of last year:

Uncontrollable	\$60,236 00
Board of Control	12,140 00
Parks and Exhibitions	15,600 00
Island Committee	3,300 00
	————— \$91,276 00

The remarks which accompanied the presentation of the Civic Estimates last year, the very full discussions which attended their consideration, and the statement which, as heretofore, accompanied them, render it unnecessary to go into any further consideration of the latter at the present time.

THE CITY DEBT.

I beg to draw special attention to the City Debenture Debt Statements, containing an analysis of the whole of the bonded debt of the City, set forth in full detail with great elaboration, exhibiting under distinctive headings of "General," "City's Share of Local Improvements," and "Local Improvement" Issues, which are severally and minutely analyzed as to the issue being in currency or sterling, the purpose of the same, the numbers of the Debentures, the numbers of the By-laws, the rates of interest, and the dates of maturity, thus enabling every Debenture holder at once to locate his Debenture, and trace it from the date of its issue to that of its maturity.

General Debentures (including late Towns of Parkdale and East Toronto and late City of West Toronto) to the amount of \$53,155.31, and Local Improvement Debentures, including the City's share of local improvement works and services, to the amount of \$909,603.88, were retired last year, aggregating \$962,759.19.

Local Improvement Debentures, including the City's share of local improvement works and services, amounting to \$1,469,432.70; were issued last year.

General Debentures, amounting to \$1,961,000, were issued last year.

The following will mature during 1910:

General (including East and West Toronto)	\$60,410 61
Local Improvement (including City's share and East and West Toronto)	1,229,815 78
	<hr/>
	\$1,290,226 39

The bonded debt of the City on the 31st December last was \$35,972,988.17.

1. General City Debt (including Parkdale, East and West Toronto)	\$25,648,813 52
2. City's share of the cost of Local Improvement Works (including Toronto Railway and West Toronto)	3,380,599 73
3. Ratepayers' share of cost of Local Improvement Works (including East and West Toronto)	6,943,574 92
	<hr/>
Total	\$35,972,988 17
Deduct Sinking Funds on hand	9,323,590 48
	<hr/>
Net Debt	\$26,649,397 00

General Debentures to the amount of \$5,150,000 have been authorized, but not negotiated. Nearly all the money has yet to be expended.

Of the above debt, a portion was expended in works and services which are revenue producing or specially rated, as follows:

1. Water Works	7,064,727 00
2. New Esplanade Loan	356,000 00
3. Exhibition, New Permanent Buildings	817,647 00
4. Street Railway Pavement Loans	671,669 00
5. Local Improvement Loans (specially rated)	6,943,574 92
	<hr/>
Making together	\$15,853,617 92

The sinking funds annually set apart pursuant to statute will be sufficient to pay off the debentures as they mature, save and except the debentures authorized to be renewed under the old Consolidation Act.

BORROWING POWERS.

The borrowing powers of the City are regulated by statute. The debt is limited to 12½ per cent. on the first one hundred million dollars of all the assessable property in the municipality, and to 8 per cent. on the excess of assessment over that amount. In computing the margin of the City's borrowing powers, the Water Works debt being a revenue producing investment, and the Local Improvement Debt being specially rated, are not counted.

After making these allowances and computing the debt on the assessment for 1910, there is still a margin of over \$4,964,000 available for further additions to the debt.

CITY ASSETS AND REVENUES.

In considering the City debt, the value of the property and other assets possessed by the City should not be overlooked. The estimated value of this property is over \$20,000,000, and a large amount of it is revenue producing. This valuation is exclusive of all the public works and services of the City, which have been provided at heavy cost to the taxpayers, and, though not available assets, are required for public use and convenience. The water lots owned by the City, the walks and gardens and other leasehold property, with the Market Block Property, yield an annual revenue of about \$187,000, which will increase from year to year as the leases mature and are renewed. This revenue from the City properties, exclusive of the Water Works, at 3½ per cent., represents a capital of nearly \$5,300,000. In addition, during the current year it is estimated that the City will receive a revenue from licenses, police court fines, cattle market and weigh house fees, and the street railway service, etc. (exclusive of that derived from the Water Works), of about \$941,100. The estimated revenue this year from the Water Works is \$725,000.

These, with other revenues, make the estimated annual revenue of the City for 1910, \$2,162,909. Adding a surplus of \$60,236 in the Revenue of 1909, makes the total amount available \$2,223,145, exclusive of amount raised by taxation.

This added to the estimated revenue to be received from general taxation and local improvement rates, together amounting to \$5,489,562, make the aggregate estimated revenues from all sources \$7,712,706.

THE STREET RAILWAY REVENUE.

The receipts from the Street Railway earnings continue to increase. In 1908 the City's share of the revenue amounted to \$528,556, and in 1909 to \$589,955, the increase being \$61,399.

The number of passengers carried in 1909 was 98,117,991, an increase of 8,978,420 over 1908, which yielded gross earnings amounting to \$3,926,828, being an increase of \$316,555 over 1908. The number of transfers for 1909 was 38,151,596, an increase over the previous year of 5,451,020. The financial statement to 31st December, 1909, shows a net profit of \$1,092,382, or an increase over that of 1908 of \$64,026. Out of the net profits for 1909 four quarterly dividends of 1¾ per cent. each, aggregating \$560,000, have been declared, which leaves \$382,382 to be carried forward as at 1st January, 1910. The mileage run in 1908 was 15,010,535, an increase over 1907 of 234,911 miles. The estimated revenue to the City for 1910 is: Mileage, 82,500; Percentage, \$575,000; total \$657,500.

The company's *net earnings* in 1909 were \$1,930,913, an increase of \$209,687 over the net revenue of 1908.

The following statement shows the revenue received from the Toronto Railway Company since the company obtained the franchise in 1891:—

YEAR.	MILEAGE.	PERCENTAGE.	TOTAL.
	\$ c	\$ c.	\$ c.
1891 (four months only)	18,134 94	22,967 10	41,102 04

1904	73,873 60	249,511 42	323,385 02
1905	73,982 00	292,706 72	366,688 72
1905 arrears of mileage) . . .	6,879 56	6,879 56
1906	78,445 08	348,963 48	427,408 56
1906 (arrears of mileage . . .	2,520 57	2,520 57
1907	80,994 33	419,606 91	500,601 24
1908	81,158 00	447,397 67	528,555 67
1909	82,127 62	507,827 49	589,955 11
	1,287,256 71	3,599,864 17	4,887,120 88

* A portion of the mileage receipts was for arrears.

No effort has been spared by myself and the members of my staff to protect the interests of the corporation, and the revenues and expenditures have been carefully scrutinized and administered on lines of the strictest economy.

I trust the Report, with the several supplementary statements, which year to year it is the earnest desire and endeavor of this Department to render more full and explanatory, will commend itself to the approval of the Council.

I have the honor to be, Sir,

Your obedient servant,

R. T. COADY, F.C.A.,
City Treasurer.

AUDITOR'S REPORT, 1909.

CITY AUDITOR'S OFFICE,

City Hall, Toronto, June 15th, 1910.

To His Worship the Mayor and Council of the Corporation of the City of Toronto:

GENTLEMEN,—The Treasurer having completed his statements of Receipts and Expenditures, Assets and Liabilities, and General Balance Sheet of the City, for the civic year ending 31st December, 1909, I beg to advise having completed my audit of all matters having relation to the Civic accounts covered by the above period. The completion of the audit has been unusually delayed owing to the fact that the annexation of East and West Toronto threw a large amount of additional work on the Treasury Department during the year, entailing, as it did, the labor of incorporating the various financial and general bookkeeping of these several municipalities with the City's records.

OUTSIDE AUDITS.

During the year a regular monthly audit of the books of the *Library Board* and *Board of Education* was maintained, and all expenditures were carefully checked and verified. A monthly check audit was also maintained at the *Street Railway Co.*'s office to verify the figures for computation of the Civic percentage of revenue.

In the course of the year audits of the books of the *Exhibition Association* and the *Consumers' Gas Company* have also been made, and special reports submitted to the Board of Control thereon.

DEPARTMENTAL AUDITS.

The collection and disbursement of funds in connection with the various Departments has been kept under constant check during the year, and all receipts and expenditures verified with the books of the Treasurer's office—the *Police Court*, *License Department* and *Water Works* in particular, these departments being systematically submitted to a close and detailed audit.

TREASURER'S DEPARTMENT.

A practically daily audit is maintained in the Treasury Department throughout its various ramifications, the accounting regularly checked and all ledger balances proved.

A regular system of pre-audit of accounts for payment has been instituted and rigidly carried out, so that all accounts, of whatsoever character, must now be passed by this Department before payment can be had from the Treasurer.

Every facility for the work of the Audit has been furnished during the year, and the manner in which the work of the Department has been performed reflects credit on the staff.

CIVIC PROPERTY.

With the assistance of the Treasury and Assessment Departments, I have had compiled a complete list of all the Civic properties, setting forth the assessed value of the same in Lands and Buildings under the several heads of

Parks and Park Lands.	Water Works Property.
Halls, Markets, etc.	Public School Property.
Sewage Disposal Site.	Collegiate Institutes and High Schools.
Fire Halls and Police Stations.	Miscellaneous.
Public Libraries.	Properties under Lease and Rental.
Island Property.	

In my judgment it would be well if this record, which has taken considerable time and trouble to compile, were placed in such permanent shape that additions and reductions could easily be made to it, and the record thus kept continuous and up to date, so that at all times the information as to the details of the Civic property would be definitely and quickly obtainable.

COLLECTORS' ROLLS.

Under the changing conditions of the City in its rapid growth, it appears highly desirable that the matter of the early closing of the rolls should receive prompt consideration. At the present moment, the rolls for 1910 will be in the collectors' hands immediately, whilst several of those for 1907 are not yet closed.

I beg to recommend that regulations be adopted under which collectors should, under no circumstances, have more than two rolls in their possession at once. This could be easily effected, and the more so if the statutory requirements for the return of the rolls were not so frequently disregarded.

Another point in connection with this matter I desire to emphasise, viz., the method under which the income tax is collected. Under the present system, the long delay between the time when the assessment is made and the tax levied and collected, leads to serious loss to the Civic Revenue, which, under a better system (which might easily be devised) could be largely avoided.

SINKING FUNDS.

The various sinking funds in connection with the Civic Debenture Debt have been carefully checked.

The transactions for the year have been proved, to ascertain whether the several funds had been maintained at their proper level, and all bank balances and investment accounts verified and found correct.

GUARANTEE BONDS.

The inspection and verification of the guarantee bonds of the several Civic officials who are required to furnish such security is receiving my

attention, and a complete register of all such is being compiled, which will be maintained in permanent form and kept continuously up to date.

I have the honor to be, gentlemen,

Your obedient servant,

WALTER STERLING,
City Auditor.

Total insurance \$3,012,000

It is agreed that the terms "building," "machinery" and "contents," and the specified sums insured thereon, shall apply as follows, except in cases in which any of the items below enumerated are specifically insured: On "building," (a) to the buildings, their foundations and fittings in the nature of platforms, steam, gas, water pipes and fittings, heating apparatus and piping, elevators and all permanent fixtures and fittings attached thereto, electric wires and apparatus, speaking tubes and telephones; on "machinery," (b) to machines, including engines and boilers, attachments and belongings thereto, shafting, gearing, belting, pulleys, electric apparatus, tools and implements of all kinds used in such buildings; on "contents," (c) to office fixtures and furniture, and furniture of all descriptions, gasaliers and fittings, and stationery, office supplies, including books, pictures, paintings and engravings, statuary and works of art, safes, beds, bedding and house furnishings.

In the items covering "Waggons, Carts and Harness," no larger sum than \$25 will be claimed on any one sett of single harness, nor \$40 on any one sett of double harness.

It is understood and agreed that each of the described items of the above schedule marked * is subject to the following proviso: In the event of loss the amount insured under this item shall be held to attach to each of the described properties which may have been damaged or destroyed in the proportion which its value bears to the whole value of all the property insured under said item.

Regarding furniture, &c., at the City Hall, the marble stand and bust of the Prince of Wales (the present King) is covered to the amount of \$300. The framed portraits of ex-Mayors and of the Reeve of the former municipality of Yorkville, and also of Rev. Dr. Scadding, Mr. J. J. Withrow, Dr. Andrew Smith, and Mr. and Mrs. Howard, are covered to the amount of \$200 each. The large portrait of Queen Victoria, and also the following paintings, are covered to the amount of \$1,000 each: "Dawn of Majuba Day, 1900," "Return of the Harvesters," "York 1794, now Toronto," "Town of York, now Toronto, 1818, from the Light House Point," "Town of York, now Toronto, in 1824," "Town of York, now Toronto, from the original drawing by James Gray," "Toronto in 1834," "Toronto in 1842," "Toronto in 1854," "Toronto, 1908," "Nelson Boarding the San Josef at the Battle of St. Vincent, February 14th, 1797." The paintings "Emerald Lake," "Kicking Horse Pass," and "Evening in the Glacier Ranges, New Zealand," are covered to the amount of \$300 each. On all other pictures no larger sum than \$150 will be claimed.

Wherever dynamos, motors, or generators are insured the following clause shall apply: "This insurance excludes any loss or damage to dynamos, exciters, lamps, switch-boards, motors, or other electric appliances or devices, such as may be caused by electric currents, artificial or natural, and will be liable only for such loss or damage to them as may occur from resultant fire, or fire originating outside of the machines themselves."

Permitted to hold or effect other insurance, or to increase, decrease or cancel without notice until required by Insurance Companies.

Permission granted to assured to make ordinary repairs and alterations for twenty days at any one time, without notice and without extra charge; also for the use of benzine and naphtha, not more than one gallon of both to be permitted in any building at any one time.

Insurance on steam engines, chemical engines, hose reels, hose, water towers, hook and ladder trucks, and other fire appurtenances, is held to apply whether in buildings described in policy wording as containing same or in any other Fire Hall or premises in the municipality.

It is agreed that watchmen or a watchman with watch clock will be on duty on the Exhibition Grounds and at the Cattle Market during currency of this insurance.

This policy also covers direct loss or damage by lightning to the property insured (meaning thereby the commonly accepted use of the term "lightning," and in no case to include loss or damage by cyclone, tornado or wind-storm) whether fire ensues or not; but if dynamos, exciters, lamps, switches, motors or other electrical appliances or devices are insured, it is made a condition of this contract that any loss or damage to them such as may be caused by lightning or other electrical currents, artificial or natural, is expressly excluded, and that this Company is liable only for such loss or damage to them as may occur from resultant fire or fire originating outside of the machines themselves. It is also understood and agreed and made a condition of this contract that if there is other insurance upon the property damaged, this Company shall be liable only for such proportion of any direct loss or damage by lightning (except as above stated) as the amount hereby insured bears to the whole amount insured thereon, whether such other insurance is with a similar clause or not.
